

Nurse Practitioner LOCUM – Turnbull Medical Building
Peterborough Community Family Health Team
Full Time – December 2011 – March 2012

DESCRIPTION OF TEAM:

The **Peterborough Networked Family Health Teams'** mission is to improve community access to primary care with an overall mandate to keep our residents healthy, reduce wait times, and provide better access to doctors and nurses.

Primary Health Care Services is the parent organization of the **Peterborough Networked Family Health Teams** and will be your employer. Our five teams include 83 physicians and we are funded for 21 nurse practitioners, 6.2 dietitians, 13.2 mental health clinicians, 2.7 pharmacists, 24 nurses.

You will be part of the **Peterborough Community Family Health Team** and will work in collaboration with three female family physicians.

POSITION SUMMARY:

This position is 37.5 hours per week and is available from December 8th, 2011 until March 2012. You will work in an all female practice with a high female and paediatric patient population. You will have previous experience or an interest working with these populations. You must be an excellent communicator who is comfortable performing pap smears, discussing birth control as well as participating in chronic disease management programs.

We look forward to hearing from you!
