Keynote Speaker

**Dr. Edward Xie**

Edward Xie is an emergency physician and faculty member at the University of Toronto. Dr. Xie has worked abroad for Médecins Sans Frontières (Doctors Without Borders) and Global Health Emergency Medicine. In Canada, he is Chair of the Ontario Committee for Canadian Association of Physicians for the Environment (cape.ca), and a member of the board of directors for Toronto Environmental Alliance. Through various projects he has seen the devastating effects of climate change on human health. After medical training, he studied perceptions of climate change and health for his masters degree in the UK and currently continues to speak about and investigate issues of environment and health.
