101 Things to Do Besides Eat

When you recognize you want to eat in response to a trigger rather than physical hunger, one of your options is to choose to do another activity to redirect your attention until the urge passes or hunger comes.

Highlight the ideas that appeal to you and add some of your own. Choose activities that are enjoyable, available, and preferably, eating incompatible. Create a “Redirection Kit” or drawer with everything you need to try another activity. Establish a Self-Care Zone that’s perfect for these moments.

PRACTICE SELF-CARE
